AAA is a consulting and contract Clinical Research Organization assisting biotechnology and pharmaceutical companies in their drug development programs.

Our mission is to deliver exceptional value to biotech/pharmaceutical companies by providing superior quality consulting and outsourcing services to support their clinical development, medical publications, and safety evaluations.

AAA is founded by four veteran leaders in the biotech and pharmaceutical industry who are recognized experts in their respective fields.

Their experience spans across all phases of drug development as well as post-marketing product support and safety surveillance.

Together, they have successfully conducted multiple regulatory submissions that would lead to product approvals, both in the US and EU.

We strive to be flexible in meeting our clients' needs by effectively matching customized delivery solutions

with your project goals and financial capabilities. Our service areas include statistical and data strategy,

study designs, statistical programming and analysis, database programming, clinical data management,

medical writing, regulatory submissions, and safety evaluations.
